EDUCATION

Bachelor's Degree (B.Sc.)

Addis Ababa University

2021 - 2025

SKILLS

- Mobile App Development
- Web Development
- Project Management
- Data Analysis
- Teamwork
- Time Management
- Leadership
- Effective Communication
- Critical Thinking

LANGUAGES

- English (Fluent)
- Amharic (Fluent)
- Afan Oromo (Basics)

FITSUM TESHOME

ELECTRICAL AND COMPUTER ENGINEER

PROFILE

Computer Engineer graduated from Addis Ababa University, specializing in building, deploying, and maintaining production-ready mobile applications using Flutter and React Native. Experienced in full-stack development for web and desktop applications with React and Vue, integrating backend services using REST APIs, Rust, and gRPC. Proficient in backend development with Go, JavaScript/TypeScript, and Python, designing scalable systems with PostgreSQL, MySQL, and MongoDB. Skilled in Docker for containerized development and deployment. Also experienced in Machine Learning, particularly Computer Vision, including designing, training, and fine-tuning deep learning models using CNNs and neural networks for efficient real-world applications.

WORK EXPERIENCE

Dexel Software Development PLC

Mobile, Desktop and Web application developtmens — JANUARY 2026

- Developing mobile and Android applications with Flutter and React Native with robust testing.
- Designing and developing desktop apps and games.
- Web applications and deployments.
- Collaborating with the developer team is essential to implement updates and security measures, enhancing overall system reliability.

Ministry of Innovation and Technology

Drone Designing and Assembly — October 2024 – February 2025

- Designed and assembled drones for geographical data collection in agriculture.
- Conducted testing and quality assurance of drone systems for data accuracy.
- Analyzed data collected to inform agricultural improvements.
- Documented technical specifications and project progress for reviewers.

Commercial Bank of Ethiopia

IS support Engineer — October 2024 – February 2025

- providing technical support for information systems and ensuring optimal performance of IT infrastructure.
- Diagnosing and troubleshooting various hardware and software issues.
- Network installations in new branches.
- Collaborating with the IT team is essential to implement updates and security measures, enhancing overall system reliability.

PROJECTS

Assistive Mobile app

- A mobile application used to assist visually impaired people and people with visual constraints.
- An app that uses a mobile camera to detect obstacles and respond sound outputs.
- Developed using Flutter and a fine-tuned YOLOv8 model.
- Integrated with a map to assist navigation of the users.
- Source code.

RecipeJoy (Nuxt 3, Go, PostgreSQL, Docker)

- Architected and built a full-stack recipe platform using Nuxt 3 (TypeScript) for the frontend and Go for the RESTful API backend.
- Implemented secure JWT authentication, registration/login flows, automatic token verification on app startup, and global route middleware for protected routes.
- Integrated PostgreSQL with Hasura GraphQL and GORM for efficient data persistence across users, recipes, comments, ratings, and likes.
- Enhanced application security and user experience by implementing centralized API error sanitization, suppressing technical HTTP error details, and handling endpoint probes cleanly.
- - Containerized the Go API, Hasura, and PostgreSQL using Docker Compose for seamless environment setup.
- Visit the app here, backend server, and source code.

Music Manager web app

- A MERN stack web app that is used to store a person's favorite songs based on the kind of divisions of songs.
- Makes the user able to store, update, and delete songs in the database dedicated for the user and see recommended songs and albums to add to the favorite stores.
- Visit the app and source code.

Product Catalog

- A responsive Flutter mini e-commerce app that consists of a product list with detailed content.
- Include functionalities of search, filters, add, and remove.
- Click here to see the deployed app. source code

HOBIES

- Sports
- Voluntary activities
- Reading Fiction books
- Brain Storming Discussions
- History and Politics

EXTRA-CURRICULAR ACTIVITIES

- voluntary at Bore Sub City Administration, Bore Sub City
- Summer Tutoring and Mentoring at elementary schools
- Religious Community
